powders, and eye and cheek colors!**

How to Put Glamour Kit Together

Display Tray #1: Mineral Cheek Colors

Cut out the pictures from page 33 in the Look Book.
Tape them under the top of the clear tray, so you know the names of each.

Display Tray #1

Color tray with plastic lid over colors!

Display Tray #2: Mineral Eye Colors

Cut out the eye color pictures from page 32 in the Look Book and tape them into the bottom side of your tray, so you know the names of each. You'll easily know all the names of colors and so will your customers!

Display Tray #2

Color tray with plastic lid over colors!

*****Helpful Hint:** We used packing tape that filled the entire square on the tray cover so you can't see tape marks!
